“NANO 3.0, GLASSES FOR CHILDREN OF THE FUTURE”

The Nano Indestructible frames have evolved thanks to their updated design and technical improvements that have resulted in their new version 3.0, maintaining the essence “Nano”.

New measuring system for frames according to DIN EN ISO 8624 (p. 30)

1 New “52” hinge:

Softer and curved shapes, much more resistant and comfortable!

Double material pieces:

Siliflex + TPE

2 New rod:

Double injection part for perfect finish and solid melting between materials.*

3 Perfect front-rod alignment:

Reduction of the tension of the rods to improve the alignment between them and the front.

4 Adjustable pantoscopic angle:

Perfect fit thanks to the Siliflex core and the high recovery capacity of the new “52” hinge.

5 Rubber soft nose pads (According to reference).

6 New coupling for the strap: double material pieces (Siliflex + TPE) more ergonomic and flexible.

7 And of course, they include elastic strap and mini-strap for a perfect fit!
