# NANO AIRLINE

## A new generation of NANO glasses designed to stand out.

At NanoVista, we did it again. Following the premise of “less is more”, and thanks to our disruptive and innovative character, we present NANO AIRLINE, the first line of half-rim frames for children, a 100% Nano collection.

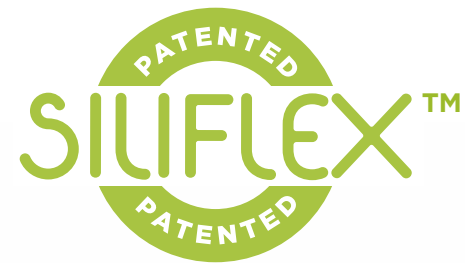

Based on the film that marked a time, the models Falcon, Jet, Top Gun and Air Force come stomping, or rather, flying high. A collection for children and teenagers between 6 and 16 years old.

The AIRLINE frames have a front made of TR90, Siliflex™ temples and the new “52” hinge for greater flexibility. Four models with stylized and aerodynamic designs with thin hinges and temples that will become the new generation of glasses designed for a new generation of children: daring, rebel and inspiring.

## Ready for take off?

NanoVista, experts in children visual health.
