

NANOGLOW

INDESTRUCTIBLE FRAMES THAT GLOW IN THE DARK

NANOGLOW 3.0

GLOWS IN THE DARK

NANOGlow is back, the **INDESTRUCTIBLE** glasses for children glow in the dark, now with a new “52” hinge, much more resistant and comfortable!

Thanks to the fluorescent glow on the temples, these frames allow children to feel safe at night, they will easily find their glasses if they wake up in the middle of the night and increase their safety by preventing accidents. The illumination gives great visibility while wearing NANOGlow and are a blast!

BRIGHTER THAN EVER BEFORE!

Now the new hinge and short temple are also fluorescent.

Fluorescent

Short temple

New 52 hinge

Very smooth and curved shapes.

Fluorescent temples

#indestructible

Manufactured with **Siliflex**, a patented material of maximum strength and flexibility that makes the frames unbreakable and 35% lighter than acetate glasses.

Emotional safety

Fluorescent colors allow kids to find their glasses in the dark easily and quickly.

Road safety

The glasses become a protective element in low visibility conditions, allowing children to be seen better in the dark.
