ALL THE FLEXIBILITY OF NANO, NOW ALSO IN METAL!

The new **Nano Metal collection Seventies Vibes** brings back the vintage icons that marked an extraordinary era. The models **Peace, Love, Flower y Power** will transport you to the best music festivals in funky and rock rhythm, you can't help but dance and have fun!

In addition, they are made with **Elaxtitan™**, the patented material that provides **elasticity and strength** to the frames, never seen in other metal glasses. Thanks to this titanium alloy, they can be stretched 180°, curved and fold, always returning to its original state. They are hypoallergenic and fully adapted to the morphology of children and teenagers between 8 and 16 years old.

WITH CLIP!!!

MEMORY EFFECT

MAXIMUM
ELASTICITY

AND NOW... WITH SOLAR CLIP!

Now you can transform **your prescription metal glasses in sunglasses by adding a magnetic solar clip.**

Category 1, 2 and 3 solar lenses, anti-reflective and Blueblock™ with different mirror colors and gradients to deliver good vibes non-stop.
4 models in 4 colors, you're gonna blow it wherever you go!

Follow the leader, follow us!

NANO, leader brand in glasses for children and teenagers.
