## Back to school? Better yet, Back to Cool!

The return to school has never been this exciting, nor this stylish! With the new **Back to Cool** collection from **Nano Cool**, kids and teens aged 8 to 16 will not only be ready for the classroom but also for outdoor life!

This season, we introduce four new models inspired by the most iconic universities: **Stanford, Harvard, Oxford, and Cambridge**. Featuring fresh designs, contemporary shapes, and super youthful translucent colors. These glasses are designed for those who want to stand out in style. The final touch? Contrasting details that make all the difference.

But the best part is the innovation. For the first time, **Nano Cool** glasses feature a **magnetic sun clip with category 3 polarized TAC lenses**. Yes! A clip that attaches instantly to protect from the sun, transforming these glasses into the perfect ally for both indoor and outdoor activities. 

With **Back to Cool**, boys and girls will always be up-to-date, both in and out of school!

Get ready for the coolest return of the year with the new **NANO COOL** collection!
