

NANOSOL

NANOSOL POCKET

FOLD, STORE, AND UNFOLD STYLE!

Attention, little adventurers and big explorers! The new foldable sunglasses from NanoVista is here to revolutionize summer (and any season).

What makes them special? Everything!

- **Compact and practical:** They fold so easily that they fit in your pocket, backpack, or bag. Always ready for action!
- **Durable and lightweight:** Made from TR-90, a material so flexible it can handle anything, and so light you'll almost forget you're wearing them.
- **Ultra-modern:** Frames with a gradient effect and soft-touch finish. Because style matters!
- **Maximum protection:** Polarized grey lenses that shield their eyes like a sun-proof barrier.

These sunglasses aren't just worn, they're lived! Because we know today's kids need style, comfort, and an extra touch of practicality.

NanoVista: where protection meets style... and fun!

NANO chameleon

CHANGE COLOR!

AMAZING! ...Yes, “amazing” is the word that will be repeated the most every time a boy or girl wears their NANO CHAMELEON.

What makes them so incredible? Change color like a chameleon! Yes, You heard it right.

Thanks to the combination of our innovative material with photochromic pigments, the Nano Chameleon frames change their shade depending on the intensity of the light, going from pink to violet or from green to blue.

Magic???...no...it's NANO VISTA science.

But wait, there's more. Protecting your vision from UVB/UVA rays during childhood is just as important as protecting your skin... but not all sunglasses are the same. Like **all our NANO SOL glasses**, the CHAMELEON collection is a true element of SUN PROTECTION:

With **category 3 polarized lenses**, filtering light and reducing glare.

Nano Chameleon, protection and fun!

* The effect of the color change and its durability in the Nano Chameleon glasses may vary depending on the intensity of sunlight and the hours of exposure subjected to it. It is recommended not to expose the Nano Chameleon glasses in shop windows with direct and/or intense sunlight to prolong the color change effect.

POLYCARBONATE

LOOK COOL!

Our NANO SOL line made of POLYCARBONATE is the perfect combination of resistance and lightness. Whatever your style, there is a polycarbonate Nano Sol for every boy, girl and teenager. Timeless or on-trend models, basic colors or daring combinations, rounded or more square shapes.

And of course, with all the guarantees of Nano lenses: with **BlueBlock™** treatment and with anti-reflective interior treatment.

Choose your model and take action!

NEW, NEW, NEW! VICTORIA

TREND ALERT!

Bye, bye to following the rules...hello to make a difference! "Screen-type" sunglasses have become the "MUST" of this season. Singers, athletes, tiktokers or youtubers have joined this trend.

NanoVista presents VICTORIA, our most innovative model. A unique design for boys, girls and teenagers who are looking for a point of transgression in their look.

Also, thanks to their impeccable fit and maximum protection, VICTORIA glasses are perfect for outdoor sports: running, cycling, skiing, skating...

VICTORIA lenses have a mirrored treatment of the highest quality, which guarantees uniform colors across the screen. The double-injected temples with contrasting rubber details are the unbeatable finishing touch. VICTORIA is designed in two calibers, to perfectly adapt to ages between 4 and 12 years.

Choose Victoria and make your difference!

ERGONOMIC DESIGN.

Babies look up in most situations. For this reason, we have developed the innovative “angle-light-cover”. A thin protective spoiler that fits perfectly to the part top of the eyes, blocking sunlight from all sides angles.

THE HIGH QUALITY LENSES THAT OUR BABIES NEED.

Lenses prepared to offer optimal protection:

- **Blue Block Lenses:** Protect from harmful sun rays. Blue Light, reducing the risk of suffering from diseases eye problems in the future (DMAE).
- **Polarized lenses:** Protection against glare.
- **Photochromic lenses:** They offer a change in intensity adaptive to ambient light, a technology never seen before baby sunglasses.
