## Musify Collection

LIMITED EDITION

Looks with rhythm & beat, that dance, and sing compose the new collection: **MUSIFY**, Nano Cool frames for children and teenagers.

Discover the new unique models inspired by the greatest youth trend: music and dance.

Created with unique acetate fusions. Each model has 4 bi-color super cool combinations. Shapes and designs developed for 'grown-up' children: from blends of transparent acetate with turquoise to tortoise mixed with orange.

But **Musify** is not just design. Like all Nano frames, its ergonomics are perfect, fitting like a glove to the children's public and its materials have the highest quality standards (natural acetates and Slim Tech and with German-made OBE hinge for maximum flexibility and strength).

**Musify** is not like any acetate glasses collection...IT IS... "#THEBEST"

## **KALEIDOSCOPIK**

### **AN EXPLOSION OF COLOR**

Have you ever tried the hypnotic effect of looking through a kaleidoscope? The Greek origin of the word literally means "to observe a beautiful image."

This is the new NANO COOL collection with incredible chromatic blends, acetates that fuse their colors and join the metal for a magical, modern, and cool look... very cool!

Stardust, Funlight, Magic, and Spark are part of this exclusive Kaleidoscopic Collection. 4 models that will forever change the course of acetate frames for children.

Great for "really cool" boys and girls.

# KALEIDOSCOPIK COLLECTION

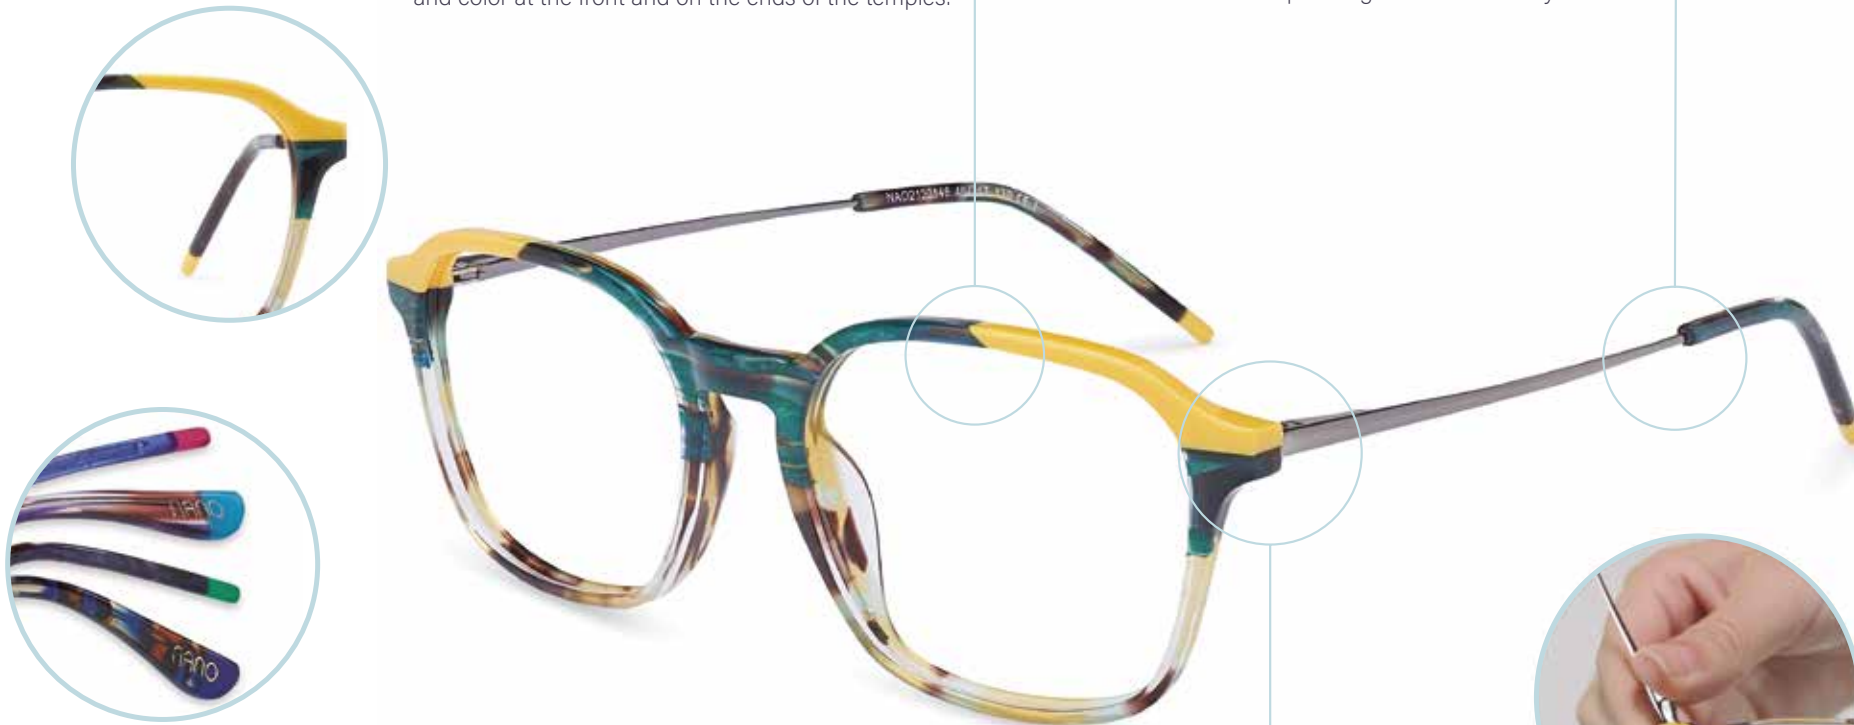

**nano** cool

## INCREDIBLE ACETATE FUSIONS

Acetate sheets combined together to create a play of light and color at the front and on the ends of the temples.

## SLIM TECH

Frames 20% lighter. Ultraslim acetates and metal temples to get a "cool" and stylish look.

**3-YEAR  
WARRANTY**

## OBE FLEX HINGE

High-quality flexible hinges made in German.
