

VERSPORT

PROTECTION - SUN RX

VERSPORT

VERSPORT SPORTS PROTECTIVE EYEWEAR IS DESIGNED AND MANUFACTURED TO PROTECT THE EYES AGAINST IMPACTS AND INJURIES DURING THE PRACTICE OF ANY SPORTS RELATED ACTIVITY WHERE THE DIFFERENT ELEMENTS OF THE GAME (BALLS, BALLS, PLAYERS' EXTREMITIES...) MAY BE A RISK OF EYE DAMAGE.

Thanks to the design of its components, specific protection systems and manufacturing material, Versport sports protective eyewear offers an appropriate protection against impacts.

Equipped with polycarbonate lenses, with or without prescription, they can prevent more than 90% of eye damages caused during sports practice.

Recommended for eye protection in any sport, but especially indicated for contact sports or those exposed to the risk of impact from balls, etc.

**Soccer/Basketball/Tennis/Padel/Volleyball
Handball/Squash/Field hockey**

Versport sports protective eyewear must be equipped exclusively with polycarbonate or TRIVEX lenses to ensure protection and respect current regulations.

HOMOLOGATIONS

VERSPORT SPORTS PROTECTIVE EYEWEAR COMPLIES WITH THE CURRENT HOMOLOGATION IN SPORTS MATTERS.

They have been designed and manufactured according to the requirements of the **European Standard EN166:2001** and are approved by **the main Sports Federations**. In addition, the models have been tested according to the demanding American standard F803-14 established by the ASTM (American Society for Testing Materials) for different contact sports and the specific sports tests related to impacts of the AIDO Technological Institute such as:

- PROTECTION OF THE EYE AND ITS ORBIT AGAINST IMPACTS CAUSED BY DIFFERENT SPORTS ITEMS (BALLS, BALLS, STICKS). RESISTANCE OF THE EYEWEAR TO IMPACTS CAUSED BY SOCCER BALLS AT DIFFERENT SPEEDS.
- RESISTANCE OF THE EYEWEAR TO IMPACTS CAUSED BY BASKETBALLS AT DIFFERENT SPEEDS.
- RESISTANCE OF THE EYEWEAR TO IMPACTS CAUSED BY TENNIS BALLS AT DIFFERENT SPEEDS.
- WATER VAPOR EVACUATION AND ITS CONDENSATION DURING SPORTS PRACTICE (FOGGING TESTS).

TECHNOLOGY

Scan this QR code to see the explanatory video of the exchange of rods by band with the QTEM system

QTEM QUICK TWIST EXCHANGE MECHANISM

Quick exchange system of temples patented by VerSport.

+HEIGHT = +PROTECTION

Our ample height frame designs have been devised to guarantee increased protection, and to allow the adaptation of progressive lenses.

IMPACT RX & ENDUR RX

Exclusive materials based on high polymers performance that provide maximum strength, anti-impact protection, safety, elasticity and the greatest comfort during sports practice.

SECURITY BEVEL EDGE

The security bevel edge yields maximum protection reinforcement. In case of a violent impact, the oversized inner bevel edge prevents the lens from detaching and striking the eye's orbit.

FLEXFIT

Thanks to their special design and build material, the temples are very flexible.

DUAL LOCK PATENTED

The patent-pending Dual Lock rim closure system enables a highly simplified assembly process, while guaranteeing maximum safety.

ANTISHOCK & AIRFLOW

The pads have been especially designed to protect the face from eventual strikes while offering maximum comfort and ensuring optimal air flow, minimizing fog build-up in the lenses, and thus improving visibility.

SOFT COMFORT

The Dual-Rubber Technology of the temples provides both elasticity and adherence, ensuring a proper fit and maximum comfort.

PRESCRIPTION LAB

Versport's lens manufacturing and assembly laboratory specializes in the fitting of ophthalmic and solar lenses specifically for sports eyewear. We use the latest innovations in lenses and prescription systems to optimize visual solutions in sports:

- **FITTING OF POLYCARBONATE AND TRIVEX LENSES.**
- **FITTING OF SOLAR LENSES (MIRRORED, PHOTOCROMIC, POLARIZED).**
- **COMPENSATION TO CORRECT PRISMATIC EFFECTS IN CURVED GLASSES.**
- **SPECIAL BEVELS.**
- **FITTING OF OPHTHALMIC LENSES IN DIVING MASKS (MONOFOCAL AND BIFOCAL LENSES).**
- **FITTING OF TORIC LENSES AND HIGH GRADUATIONS (UP TO -16.00D) IN SWIMMING GOGGLES.**

All Versport prescription glasses can be purchased assembled and customized with the graduations of your customers. Request a quote on our website www.gvo-optic.com

VERSPORT'S SUN RX PRESCRIPTION EYEWEAR IS A MUST-HAVE FOR OUTDOOR SPORTS

The **Airline** series eyewear feature the latest technological advances to fit base 6 prescription lenses with a sporty base 8 look and a wrap-around finish especially for outdoor sports.

The **Airline** Series eyewear uses special patented lens fitting adapters that offer these advantages:

- **Easy fitting**
- Allows for **slotted polycarbonate lenses** in base 6 with base 8 look
- **Multiple treatments:** Anti-Reflective, colorations, Transitions™, polarized... Even progressive lenses

Optimizes the prescription system on the glasses:

- Excellent optical quality
- Greater visual field
- Better peripheral vision
- Customized treatments
- Unbeatable aesthetics

CURVE CROSSING™ LENSES

Specific lenses for the **Airline** series of frames with **large curvature**. This lens increases visual fields and improves peripheral vision, always guaranteeing optical quality and excellent eye protection.

- **Polycarbonate or Trivex**
- Available for **monofocal** and **progressive lenses**
- **Wide range** of prescriptions
- **Customized** treatments

You can customize all Airline glasses with Curve Crossing lenses and multiple treatments through our PRESCRIPTION LAB.
